

Futura MC505

Thermoblock Espresso Machine

FUTURA MC 505 is a ThermoBlock espresso machine that's equipped with four filters, auto espresso flow, ASD with manual controlled steam and a rotational chrome frother. Make your favorite coffee, espresso, cappuccinos or tea - all in one unit brews coffee, froths milk, and provides boiling hot water. MC505 comes in chromed outer shell with black accents. Allows you to make a single or a double espresso using either ground coffee or ESE coffee pods. Makes one or two regular coffees using soft pods from Senseo, Melitta & others

Additional features include:

- Equipped with a ThermoBlock 1600W heating system which provides on demand temperatures for both the brewing of coffee or frothing of milk for cappuccinos
- 18 Bar pump pressure (substantially above the minimum requirement of 9 bars necessary for an authentic espresso) produces a savory espresso with perfect crema every time.
- Removable 1.8 liter water reservoir that fills from the top
- 360° rotating chrome steel turbo jet frother combined with ThermoBlock technology, a Briel exclusive, instantly produces plentiful dry steam for a thick milk froth for a cappuccino or latte
- Diering®™ System automatically eliminates residual air and reserve pressure from the boiler, avoiding dripping and increasing safety.
- Adjustable drip tray height moving up for espresso cups, as well as a removable overflow tray for easy clean up
- Clearly marked SoftTouch buttons for an easier usage
