ES42F (black)

Revolutionary new modular design which combines all the great features from Briel's existing range (plenty of pump pressure, patented "Crema Master" filter for consistent genuine crema and easy-to-clean water tank and drip tray), with innovative new developments which are guaranteed to make the production of espresso and cappuccino at home easier than ever before. ***ESE adaptable for use with ground coffee or coffee servings (pods) at a great opening pricepoint!***

Additional features include:

- **ESE** adapted for use with ground coffee or coffee servings (pods).
- Unique Thermoplastic steam tap activates steam heating element
- No need for separate steam on/off button means no more overheated boilers with blown elements
- Virtually instant steam supply for up to 5 minutes - enough for 6 Cappuccinos!
- Boiler in food grade aluminum heats quickly and only uses 800 watts
- Interior of boiler with 15 bars of pressure – ideal for creamy espresso extraction
- Filter holder and filter basket for ground coffee/Filter holder for coffee servings (pods)
- Aluminum boiler it has a greater capacity in retaining and accumulating heat, this makes it possible for the use of a heating element of only 800 watts, and still offering a very good performance.
- Placing the heating element on the exterior and covering the inside of the boiler prevents any problems with lime scale.
- The protruding parts inside allow a fast and very efficient heat transfer to the water, this allows the temperature recovery of the water after the coffee extraction of only 20 seconds.
- Patented Crema Master™ filter produces rich genuine crema every time and AquaStop™ No-Drip System prevents dripping and need to "bleed" machine of remnant water.
- "OK" light signals when machine is ready for brewing or frothing.
- Two thermostats regulate the coffee cycle and steaming process, with a third "safety" thermostat located on the pump in the event of abnormal or continuous use.
- Push button switches – dependable quality.
- Large 40-ounce water reservoir that fills from the top. Transparent for easing viewing.
- Water filter on intake.
- Removable overflow tray for easy cleanup.

Master Carton:

- 2 units
- 21.6" x 13" x 13.8"
- 22.4 lbs.

UPC Code: 7-86818-00161-2

- 120 volts, 800 watts, UL approved

Single Unit Box:

- 12.2" x 10.2" x 13"
- 10 lbs
