

Espressione

Espresso capsule

The Meseta Capsules System Espresso blend is the one that best represents the Meseta roasting slow experience. Thanks to its special roast, the selected Robusta beans from India, Africa and the Far East are mixed to perfection with the Arabica beans from the plateaus of Brazil.

The result is a blend with character and fullness, combining body and aroma into Meseta Capsules System biodegradable coffee capsules.

100% Arabica capsule

A blend of rare Arabica beans. The special roast enhances the subtle flavor and mild aroma without compromising the body of this typically Italian coffee.

Intenso capsule

This blend is for those who enjoy a strong, smooth and creamy cup, just as Southern Italian tradition dictates. Meseta Intenso capsule has great body and rich aroma, which are both intensified by a rather dark roast.

Decaffeinated capsule

Excellent decaffeinated coffees which, thanks to the careful selection of the varieties used and the slightly strong roast, retains all the aroma and flavor of classic coffee into the Meseta Capsules System biodegradable capsules.

As required by Italian regulations, this blend may not contain more than 0,1 % of caffeine per cup

Each of the Meseta Capsules is available in 100 count boxes
