Meseta Concerto Plus Espresso Machine

MESETA CONCERTO is the easy and fun way to make the best tasting espresso. Simply open the lever put in the Meseta capsule and pull the lever back down to start the extraction. This small but mighty unit is equipped with a special thermo-boiler heating system to allow instant heat technology. The heating system boasts stainless steel channels to prevent oxidation and provide long life consistent performance. Powerful 20 bar CEME pump with overheating and overpressure controllers provide excellent extraction with maximum safety and reliability in one elegant machine. Comes in a rich piano black finish. Bonus 50 variety capsule pack (SRP value of \$29.25) included Free!

Additional features include:

- Heavy duty 1050W , 120US Volt operation with overheat and overpressure control. Special thermo-boiler heating system with stainless steel channels prevents oxidation and ensures quality
- 20 bar CEME pump provides commercial quality extraction for the home or office consumer, yielding rich thick espresso without scalding the coffee flavor
- Robust controls with a auto ejection system, large 1 liter water tank and capsule bin holding up to 12 Meseta capsules add to the experience
- Easy to clean and maintain thanks to the smart design including a removable drip tray and quality ABS sprayed housing with chrome finishes
- Environmentally friendly 100% biodegradable Meseta capsules
- Machine dimensions and weight: 14.2" x 8.3" x 10.6" , 10.8lbs
- Model:TRD0001 UPC: 8-18486-110000

The Meseta Concerto is designed to be used with Meseta biodegradable Capsules which comes in four (4) flavors including Espresso, 100% Arabica, Intenso, and Decaffeinated
